Atilla ARSLAN

PROFİL

I received my high school education from Lycée école Rive Gauche in France and Tomarza Science High School in Turkey. I am currently a final year Computer Engineering student at Selçuk University. I have communication skills in both French and English. I have knowledge in web and Android applications. I am currently learning and trying to produce web applications mostly with React. I will publish my personal website soon.**You can access my projects on** https://github.com/Atilla0001.

COMPETENCIES AND AREAS OF INTEREST

JavaScript
React
Flutter
HTML
CSS (Boostrap)
C++

COMPUTER ENGINEERING
Web and Android

WORK EXPERIENCE

İNTERNSHİP
YARTU, KONYA
May 2022 - November 2022
During my internship, one month of which was compulsory and five months of which was voluntary, I focused on **Android** and **Web** application development. During this time, I gained experience in a wide range of areas from mobile application design to application development using Javascript and Flutter. I also gained competence in web frontend during my internship.
I worked with technologies such as **Flutter, React**, JavaScript, HTML, CSS and Bootstrap in web-based projects. In this process, I gained experience in various areas such as user interface design, frontend development and data management in the background. In this way, I gained a versatile skill set in both mobile application development and web-based projects. With the knowledge and experience I gained in this process, I am currently focused on continuously improving myself in web development, and I continue to learn in an open manner

EDUCATION

University Selcuk
2020-2024
